Howdy Gang –

Oregon representative was not pleased with EPA's approach at Portland Harbor. The grilling starts about the 1 hour and 9 minute mark.

Hi Steve and Karl,

Please see Greg's e-mail below. GAO wants to interview the regions over the phone for this engagement, specifically regions 2, 5 and 10 (between 9/15 to 9/25). Do you have any regional contacts that I can refer them to? I will request that GAO keeps us in the loop on these interviews as well. Thanks

Subject: Meetings with EPA regions on GAO's Superfund sediment site engagement (job code 100205)

Hi Kevin, per our earlier telephone conversation, we would like to obtain the contacts in EPA's 10 regions that we should speak to on Superfund sediment sites. Our plan is to eventually speak with all 10 regions, but we would like to first start off with meetings with EPA regions 2, 5, & 10. Our hope is

that discussions with the first three regions could take place sometime between Sept. 15th and Sept. 25th. We would send our questions in advance once we have set up the meeting. At this time, the questions would focus at a higher level regarding site remedy selection coordination within and outside EPA; policies and guidance relied on by the regions in the remedial response process; and any current challenges. These interviews would take place over the phone. Also, in the October-December time frame we would like to visit some selected Superfund sediment sites that we will choose in the near future. Thanks for your assistance. If you have any questions let me know.

Thanks,

Greg Carroll
